

# Puglia

## Main challenges

## Demo sites

## Main focus in RESIST

Puglia will focus on the **tourism sector**, supporting the development of resilience strategy, actions, and rules linked to winds, floods, and snow. Puglia's Department of Tourism, Economy of Culture and Valorisation.

of Territory will work on how to reach **effective communication** not only towards the local community but also towards tourists for the **protection of the territory**.

## Goals

- Develop interventions specifically tailored to make the tourism sector in Puglia more resilient to the impacts of climate change.
- Formulate innovative policies towards the tourism sector improve early warning systems.
- Develop comprehensive guidelines to integrate local stakeholders in planning and decision-making processes.
- Develop a forecasting tool.

## Main achievements so far

- Building a **frame of knowledge** on the risk of climate change.
- Discussion on challenges, sectors to focus and **scenario building**.

## Innovations

### Tourism innovations

Applying innovative solutions geared to the tourism industry to boost climate resilience in the region.

### Site-specific warnings

Implementing impact-based, site-specific warning services to tackle climate-related emergencies.
